We design from simplicity, imagining a more
conscious and handmade world

ABOUT US

Basico Macrame was born from my love for the art of knotting. Creating unique, everyday pieces by braiding ropes is my passion. There's nothing more fulfilling than watching an idea take shape through knots and threads. I discovered macramé in Mexico, on the beautiful Isla Holbox in Yucatán, where I was lucky to live for a few months and learn from a local macramé artist who became my teacher.

Our Philosophy

At Basico Macrame, every piece is a unique work of art, made with care and attention. We handcraft each item to order, ensuring quality and reducing environmental impact. We believe in conscious consumption and creating pieces that not only beautify but also respect the environment.

Environmental Commitment

We're committed to responsible consumption. That's why we use OEKO-TEX® certified recycled cotton – soft, durable, and sustainable.

By producing only upon request, we minimize waste and ensure the uniqueness and quality of each piece. Choosing our products means making a positive impact on the planet. [Learn more about this certification here](#)
